The best reason for using paint outside is because of the fact that it protects your property against the wear and tear of the weather.

Of course it improves the appearance too, and adds much to market value if you wish to sell, but the chief reason is that the building that is kept painted keeps in good condition.

We are Agents for Sherwin-Williams Paints and Varnishes. The makers of these paints have studied the principals of paint protection for years and so every Sherwin-Williams product wears. well, and looks well.

There is economy in using good paint, to come and talk to a shout — Sherwin-Williams Paint (Prepared) SWP for Pour bloudings—SAW Porch Floor Paint for verandahs and porch form SAW Wagon Paint for wagons and implements—SAW Buggy Paint for buggies; automobiles, porch furniture, boats, canoes, etc.

We haven't space here to tell you about all the different Sherwin-Williams products. Just remember that there is a special 8-W finish for every kind of surface. Come and see us about your painting needs.

Do you eat the best corn in the whole world?

Perhaps you couldn't say off-hand what corn is the sweetest and most nutritious. Then lat us tell you—it's the perless Southern White Sweet Corn which is used in making

Kelloggs

We don't stop at selecting the best corn. We take only the hearts of it. These "Sweet hearts" are cooked under very high temperature, then rolled into flakes, Then comes the toasting which gives them their rich brown color.

Surely, when you buy Corn Flakes, you want the ginal-which is Kellogg's.

From every shipment of wheat delivered at our mills we take a ten pound sample. We grind this into flour. Bread is baked from the flour. We find that some samples make more bread and better bread than

others. So we keep the shipment from which the more and better bread

which the more and better because comes. The others we sell.

You save money by using flour that beers this name. And you get Better bread.
